

WEEKLY UPDATE

April 9, 2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 11 residents and 22 staff members test positive for COVID-19. The last positive staff was on March 2, 2021. The positivity rate for Charles County continues to rise. As of April 5, 2021, the positivity rate went up to 6.8%. We will continue conducting mass testing for all staff once per week as directed in the order.

Please be reminded that you can now call the facility to schedule your visits to see your love one. You can call our receptionist desk Monday through Friday between the hours of 8:30am – 4:30pm to schedule your weekly visits.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 240-448-2000.

Sincerely,

Calanthia Green
